## Custom RealFlight Aircraft Download and Installation:

🚱 Save As

 Click on the link of the aircraft that you want to download. Save File As window will open.

Aircraft List & Links

- **2.** Click on "Documents" (usually on the left margin of the window)
- **3.** Double click Click on RealFlight.
- **4.** Double click on the RFX folder > Then click Save.

RealFlight 9/9.5

(RealFlight Evolution next page)

Next Import the aircraft file into RealFlight...

**5.** Start RealFlight. Click Simulation, highlight Import > click on RealFlight Archive (RFX, G3X)...

**6.** Select the plane(s) you wish to Import into RealFlight > then click Open (to Import into RealFlight).

Import the aircraft file into RealFlight Evolution: Start RealFlight. Open Menu. Click My RealFlight > Import > RealFlight Archives

< My RealFlight	< Main Menu
3D Model	Manage User Files
Motor Sound Profiles	Export >
Panoramic Images	Import >
RealFlight Archives	Save Color Scheme As
	Load Flight Recording $\rightarrow$
	Edit Current Aircraft

If an Import fails due to "This aircraft variant could not be loaded. It is based on an aircraft you do not have."

You'll need to Download and Import the default aircraft file ending \_EA.RFX that the RCFS Aircraft Variant is based on.

After Importing the \_EA.RFX Aircraft file into RealFlight, Import the Aircraft Variant ending by RCFS\_AV.RFX

RF9/9.5: The optimized 1st RC Flight School (RCFS) Aircraft will be located in the Custom Aircraft folder for you to select and fly.

Evolution: 1st RC Flight School (RCFS) Aircraft are located in Free Play > Aircraft
